

# SPACES OF HOPE

INTERNATIONAL STUDY and SERVICE LEARNING  
Johannesburg, Soweto, Cape Town and Stellenbosch  
South Africa: Summer 1, 2009

**MOVE BEYOND** the staid and dated representations of a society divided among peoples and places by focusing instead on innovative urban projects that are shaping a new South Africa.

In the past, South African society was partitioned geographically along ethnic and social lines with the most striking divisions in urban centers. As the country continues to emerge from the heavy shadow of apartheid, government policies are attempting to build a brighter future for all South Africans.

This course focuses on four key urban areas in South Africa: Johannesburg, Soweto, Cape Town and Stellenbosch. These locales represent a diverse cross-section of South African society and provide the perfect balance for a comprehensive study of South Africa.

The course combines seminars, lectures, and fieldtrips. In addition, students will have opportunities to engage in two weeks of service learning. In Summer 2009, we will partner with the [Amy Biehl Foundation](#) and students will service-learn at various Amy Biehl Foundation projects.
